NOTICE  
ASBESTOS HAZARD EMERGENCY RESPONSE ACT OF 1986 (AHERA)

Our Lady of Providence High School, Clarksville, Indiana of the Archdiocese of Indianapolis has complied with the EPA School Rule (1982) and AHERA (1986). The management plan for meeting the requirements of AHERA is available upon request in the school office.

The initial required inspection of this school was completed on June 30, 1992 by an accredited inspector/planner. The asbestos-containing building materials identified, if left undisturbed, do not present an immediate danger to building occupants. The response actions and preventive measures have been taken or are planned in accordance with the management plan.

Furthermore, periodic surveillance of asbestos-containing building materials is completed every six months to ensure that the materials are undisturbed and in good condition.

The building will be re-inspected by an accredited inspector/planner every three years after the initial inspection.

I hereby certify that I have made the notifications required under AHERA.

Stephen F. Williamson, President
